

**Name:** Emma Johnson

**Email:** emma.johnson@email.com

**Phone:** +1 123-456-7890

**Objective:**

Data Scientist with 5+ years of experience in AI and deep learning. Aiming to build intelligent systems to drive business decisions.

**Work Experience:**

- Data Scientist, ABC Tech (2019-Present)
  - Developed CNN models that improved image classification accuracy by 15%.
  - Created automated data pipelines with Apache Spark.
  - Led a team in deploying scalable ML models in production.

**Education:**

- M.Sc. in Computer Science, Stanford University (2017-2019)

**Skills:**

- Programming: Python, SQL, R
- ML Frameworks: PyTorch, TensorFlow
- Tools: Apache Spark, Tableau, BigQuery

**Projects:**

- Built an object detection model for autonomous vehicles.
- Developed a fraud detection system using anomaly detection techniques.
